ACTIVITY IN LIME QUARRIES.

ACTIVITY IN LIME QUARRIES.

There is much activity these days over in Rush valley, where time rock is being quarried and shipped at the rate of about 1,000 tons per day to the Salt Lake valley smotters and the Utah Sugar company here and at Garland, and a new town, named Toplinf, is rapidly springing up.

The Utah Sugar company is obtaining its supply of lime rock from the Lime King quarry. This rock shows but a very small per cent of sillefa and a very high percentage of lime, which makes it ideal for sugar making purposes and is the best lime rock for sugar making in the United States, taking Mr. James H. Gardner of the sugar company as authority.

The United States Smelling company

The United States Smelting company has opened up a quarry from which it obtains 400 tons per day for its Bingham Junction plant, which is loaded at a cost of less than 30 cents per ton. The American Smelting and Refining company has also recently acquired title to 640 acres of land in Rush valley. Surveyers are busy running a line for a spur into this property. A crusher will be erected and power to run it will be obtained from the Telluride Power company. It has a very large ledge of the very best of commercial lime stone which is ideal for fluxing purposes, as which is ideal for fluxing purposes, as the silica is overcome by the small per cent of iron which is in the rock. The company expects to begin shipping about 500 tons per day as soon as the spur is completed.
